### Product description

- 6-piston aluminium fixed caliper on the front axle painted in BMW "Performance Yellow" including "BMW Performance" logo in Ferricgrey.
- Drilled and grooved, internally-ventilated brake discs on the front axle.
- 2-piston aluminium fixed caliper on the rear axle painted in BMW "Performance Yellow" including "BMW Performance" logo in Ferricgrey.
- Internally-ventilated brake disc on the rear axle.
- Not available as standard.

### Sales features / benefits

- The 17" BMW Performance brake system improves thermal durability thanks to larger, internally-ventilated brake discs.
- Drill holes and grooves on the BMW Performance front axle brake discs reduce the build-up of a film of water between the brake pad and the brake disc.
- Reduced weight, therefore lower unsprung masses.
- More attractive appearance.
- Highlights sportiness, particularly in the case of alloy wheels with an open wheel design.

### Homologation

From 09/2009, the BMW Performance brake system for E9x 330i/d models is included in EG-BE No.

e1\*2001/116\*0308\*12 (E90, E91)

e1\*2001/116\*0346\*11 (E92, E93).

Nevertheless, national approval and modification of the vehicle documents is always necessary, since the brake system changes in the data relevant to the permit.

BMW Performance brake system

### Availability

from 09/2009

(Part No. 34 11 0 444 769)

### Installation time

approx. 3.5 hours

### DVD EPC

from 09/2009

(Part No. 34 11 0 444 769)
