Product description

- 6-piston aluminium fixed yoke on the front axle painted in BMW "Performance Yellow", including "BMW Performance" logo in ferric grey.
- Grooved and perforated, internally-ventilated brake disc on the front axle.
- 2-piston aluminium fixed yoke on the rear axle painted in BMW "Performance Yellow", including "BMW" logo in ferric grey.
- Internally-ventilated brake disc on the rear axle.
- Not available ex-works.

BMW Performance brake system

Sales features / benefits

- The 17" BMW Performance brake system improves thermal capacity with larger, internally-ventilated brake discs.
- The holes and grooves in the BMW Performance front axle brake discs reduce the formation of a film of water between the brake pad and the brake disc.
- Lower weight, resulting in lower unsprung masses.
- More attractive look.
- Underlines the sporty character, particularly when combined with alloy wheels with an open wheel design.

Homologation

The BMW Performance brake system is included in EC Homologation Nos.

- e1*2007/37*0287*14 (E81, E87)
- e1*2007/37*0352*04 (E82, E88)
- e1*2007/37*0308*09 (E90, E91)
- e1*2007/37*0346*08 (E92, E93)

from 09/2008.

However national approval and modification of the registration documents are always required since the brake system modifies the data relevant to the registration.

For cars built before 09/2008, national homologation must be obtained with the TÜV report (No. 08-00017-CP-GBM-00).

Availability

from 03/2008 (PN: 34 11 0 444 766)
from 07/2008 (PN: 34 11 0 444 769)

Installation time

approx. 3.5 hours
