Product description

- 6-piston aluminium fixed calliper on the front axle painted in BMW "Performance yellow" including "BMW Performance" lettering in ferric grey
- Perforated and grooved, internally ventilated brake discs on the front axle
- 1-piston floating calliper on the rear axle
- Internally ventilated brake disc on the rear axle
- Not available ex-works.

Sales features / benefits

- The 17-inch BMW Performance brake system improves the thermal load capacity because of larger, internally ventilated brake discs
- The holes and grooves in BMW Performance brake discs reduce formation of a film of water between the brake pad and the brake disc
- Lower weight, resulting in lower unsprung masses
- More attractive look
- Underlines the sporty character, particular when combined with alloy wheels with an open wheel design.

Homologation

From 09/2008 onwards, the BMW Performance brake system is included in EC homologation nos.
e1*2007/37*0287*14 (E81, E87)
e1*2007/37*0352*04 (E82, E88)
e1*2007/37*0308*09 (E90, E91)
e1*2007/37*0346*08 (E92, E93)

Nevertheless, national approval and amendment of the vehicle registration documents are always required since the brake system's data that is relevant for registration changes.

National approval must be obtained for cars built before 09/2008 with TÜV test report (no. 08-00047-CP-GBM-00).
