ORIGINAL BMW ACCESSORIES. Sport brake red retrofit kit.

NEWS:

- Product information revised

Product description

The red sport brake retrofit kit is the first M Performance sport brake to be available for the 5, 6 and 7 Series.

Sales features/benefits

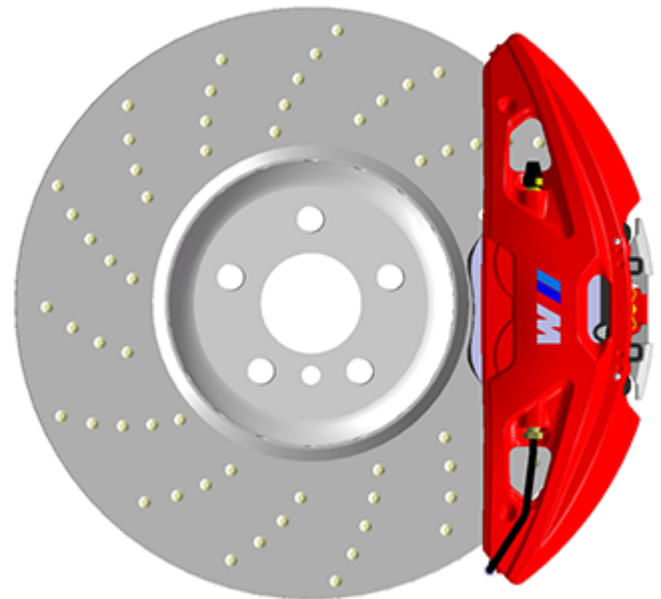

- The **attractive** appearance of the red-painted brake **perfectly** matches the design of the car and **accentuates** its sporty character.
- In combination with an **open** rim design, the sport brake looks **especially** stylish.
- The design and stability of the brake **highlights** the sportiness of the car.

Comparison with competition

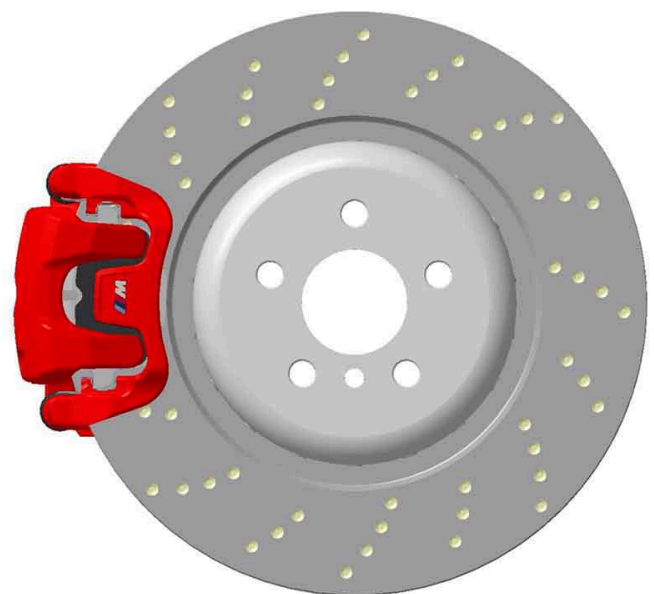

- The M Performance sport brake offers unique integration in terms of design, installation space, control and driver assistance systems.
- The M Performance sport brake delivers the best value for money when compared to our competitors.
- Upgrade the brake size on the front and rear axles compared to standard and optional brakes. Available for all engine sizes with very few exceptions.
- The M Performance sport brake has been tested in accordance with all BMW standards with regard to quality and function. The retrofit preserves the vehicle's warranty.
- A separate code variant of the DSC (Dynamic Stability Control) allows the function of safety-related stability systems and of all the driver assistance systems dependent on them.

Functionality

- The larger, internally ventilated and perforated M Performance lightweight brake disks deliver improved thermal capacity and therefore greater braking performance in extreme conditions. Braking performance (good response and thermal resilience) is maintained for longer for frequent alternation between fast acceleration and braking.
