Product description

- The 17" JOHN COOPER WORKS sport brake disc can be installed in the R55 JOHN COOPER WORKS CLUBMAN, R56 JOHN COOPER WORKS and R 57 JOHN COOPER WORKS CONVERTIBLE with a standard brake system without requiring any additional modifications to the front axle.
- The 17" JCW sport brake disc is included in the retrofit kit (34 11 0 432 802) for the MINI R55/R56/R57 17" John Cooper Works sport brake, avail-able for all R55/R56/R57 models (except JOHN COOPER WORKS series models).
- Perforated and grooved, internally ventilated sport brake disc for the front axle.
- Not available ex-works.

Sales features/benefits

- The holes and grooves in the JOHN COOPER WORKS sport brake disc reduce formation of a film of water between the brake pad and the brake disc.
- Attractive design.
- Underlines the sporty character, particular when combined with alloy wheels with an open wheel design.
- Brake disks are wearing parts and the perforated and grooved brake discs can be offered to the customers as alternatives when the brake discs on the R55 JOHN COOPER WORKS CLUBMAN/R56 JOHN COOPER WORKS/ R57 JOHN COOPER WORKS CONVERTIBLE need replacing.

Homologation

In the case of the R55 JOHN COOPER WORKS CLUBMAN/R56 JOHN COOPER WORKS/R 57 JOHN COOPER WORKS CONVERTIBLE or where the 17" JOHN COOPER WORKS sport brake has already been retrofitted, no entry in the vehicle documentation is necessary, as the brake system does not change in terms of the data relevant to approval.
